MEMORANDUM

Date: January 9, 2015

To: BOL - File

From: Tom Miller – FOS - Collinsville

Subject: 1190505040 – Madison County
Hartford/Hartford Free Hydrocarbon Plume
~~Site Remediation Technical Reports~~

RECEIVED
JAN 12 2015
IEPA/BOL

On December 10, ²⁰¹⁴~~2013~~ this writer visited the Hartford Free Hydrocarbon Plume site in Hartford to observe HSVE Well installation activities along West Birch Street. It was approximately 37 degrees F. and mostly cloudy at the time of my visit

I arrived on-site at 1030 hours and spoke with Todd Aseltyne, a Geologist with Trihydro. Tom Binz, USEPA Region V Start Contractor was also present at the time of my visit.

While on-site, I observed a crew from Bulldog Drilling completing the installation of HSEV Well 107 installed to a depth of 45 feet below ground surface and screened from 35 to 45 feet in the Main Sand Unit (Photos 001 and 003). A group of Local Labor Union 520 Representatives was performing informational picketing at the time of the drilling activities (Photo-002).

Prior to leaving the site, I stopped at the Hartford Community Center on West Arbor and observed the location of newly installed HSVE Wells 106D and 106S (Photo 004).

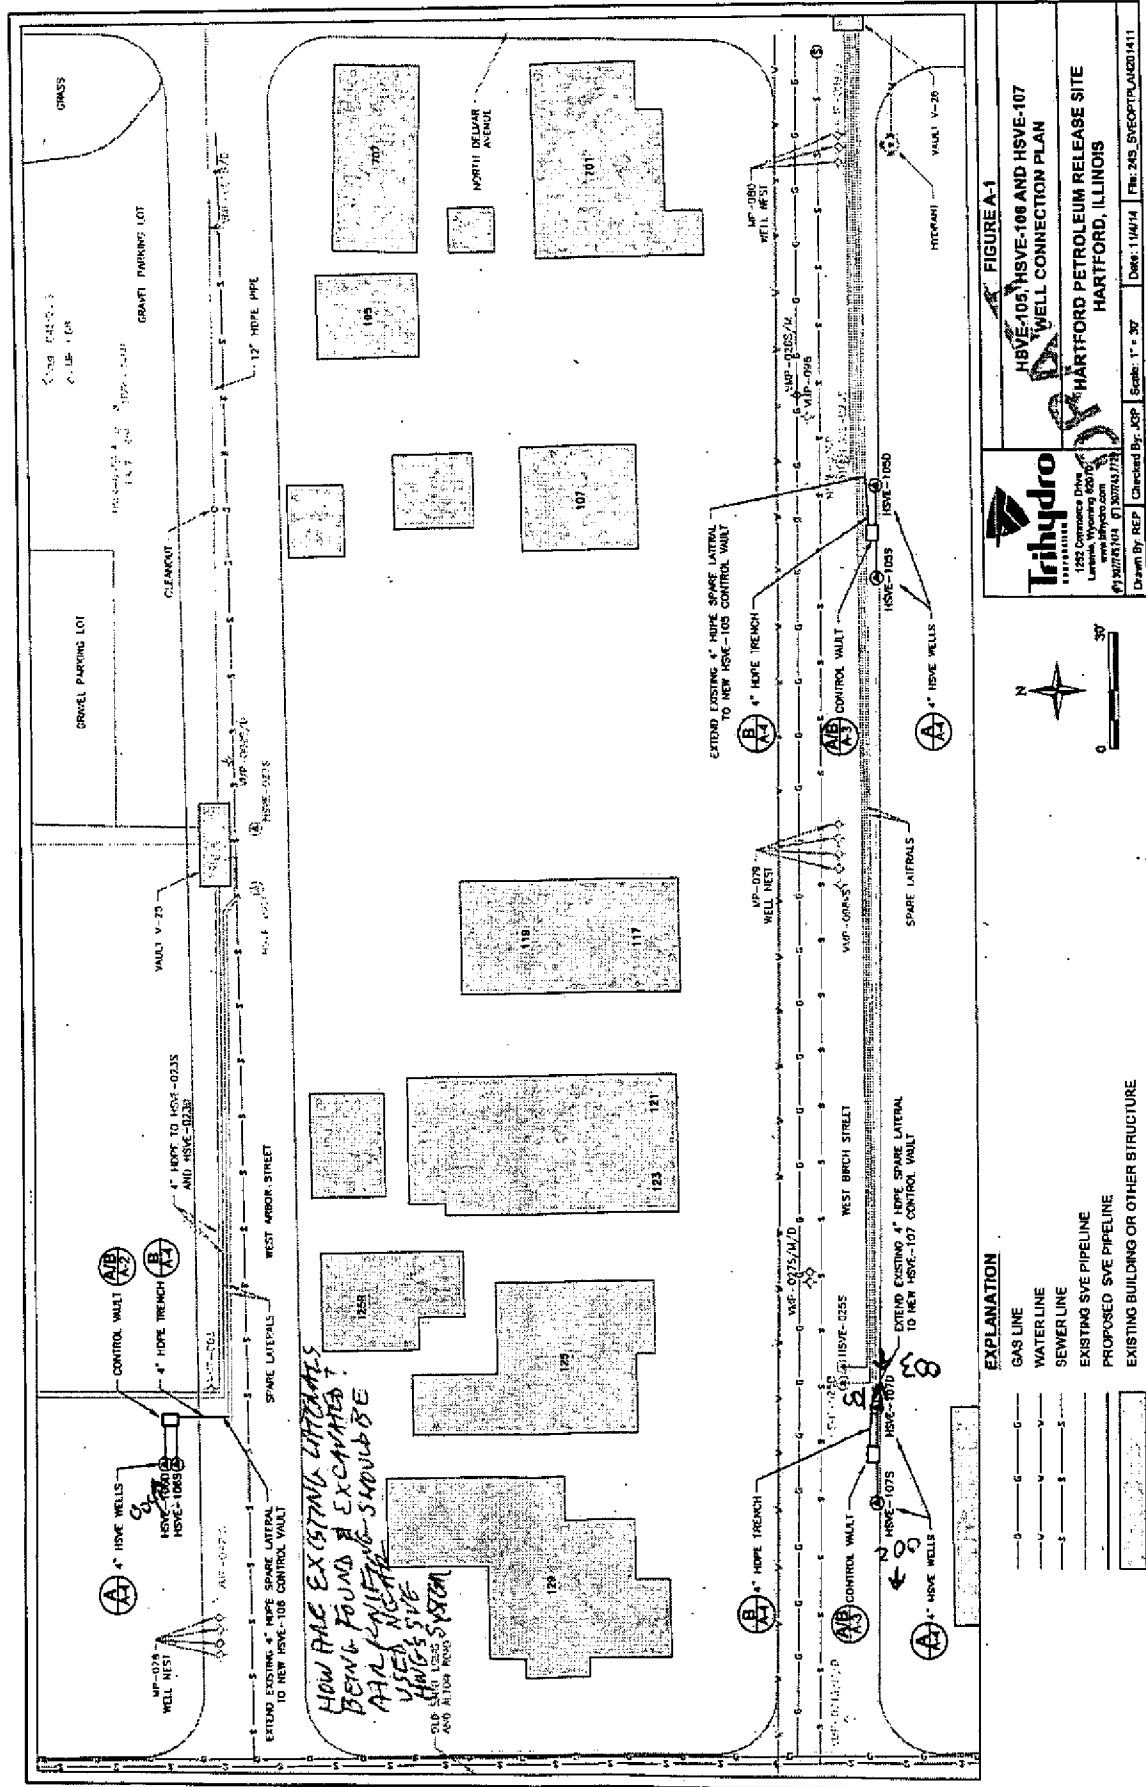

I left the site at 1130 hours.
